

Property Report

Burnaby, BC

Property Assessment For
Laneway Home Development

This assessment is tailored to align with the City of Burnaby's "Housing Choices" program and relevant municipal bylaws. It is designed to evaluate a property's eligibility for a laneway home, identifying specific considerations unique to each property. Consider this an initial step in the eligibility verification process, pending a detailed zoning review by city officials. Should your property not meet standard guidelines, exploring a variance with the City's Planning Department may be an option. To navigate the approval process efficiently, we recommend working with professionals experienced in laneway housing development in Burnaby.

Property Information

Address	
Zoning	
Lot Dimensions	
Floor Area	

Conformance Checklist

Is the property located in one of the eligible zoning districts (R1, R2, R3, R4, R5, R6, R9, R10, R11, R12, or RM6)?	
Does the property have a single-family home with vehicular access to the rear yard from a side or rear lane or residential street?	
For corner lots or double-fronted lots without open lane access, has approval been obtained from the Engineering Department?	
Does the property comply with Streamside Protection and Enhancement Area regulations, if applicable?	
Can the lot accommodate up to three units, including the principal dwelling, a secondary suite, and a laneway home, while remaining under a single title?	
Is there space on the lot to provide at least one van-accessible parking space with electric vehicle charging?	
Does the layout of the lot allow for the provision of a private outdoor space and a required pathway access from the street?	
Can separate sewer, water, and power services be provided for the laneway home?	
Is the property free from heritage conservation constraints that might prevent the construction of a laneway home, or can exceptions be made to preserve heritage buildings?	
Maximum Coverage Dictated by:	45% of the lot area
	Setbacks

Can I build a Laneway home?	Yes	No
-----------------------------	-----	----

Additional Notes:

Adequate access from the main street to the rear yard is essential, either directly or via an open lane or residential street. The Housing Choices Program focuses on maintaining accessibility, minimizing impact on neighboring properties through careful design, and adhering to Burnaby's zoning regulations. Properties with unique configurations will be evaluated on a case-by-case basis, with the potential need for detailed review and consultation to address any concerns related to massing and privacy. Approval for a laneway home will be granted through a development permit process, emphasizing the importance of compliance with municipal guidelines and standards.

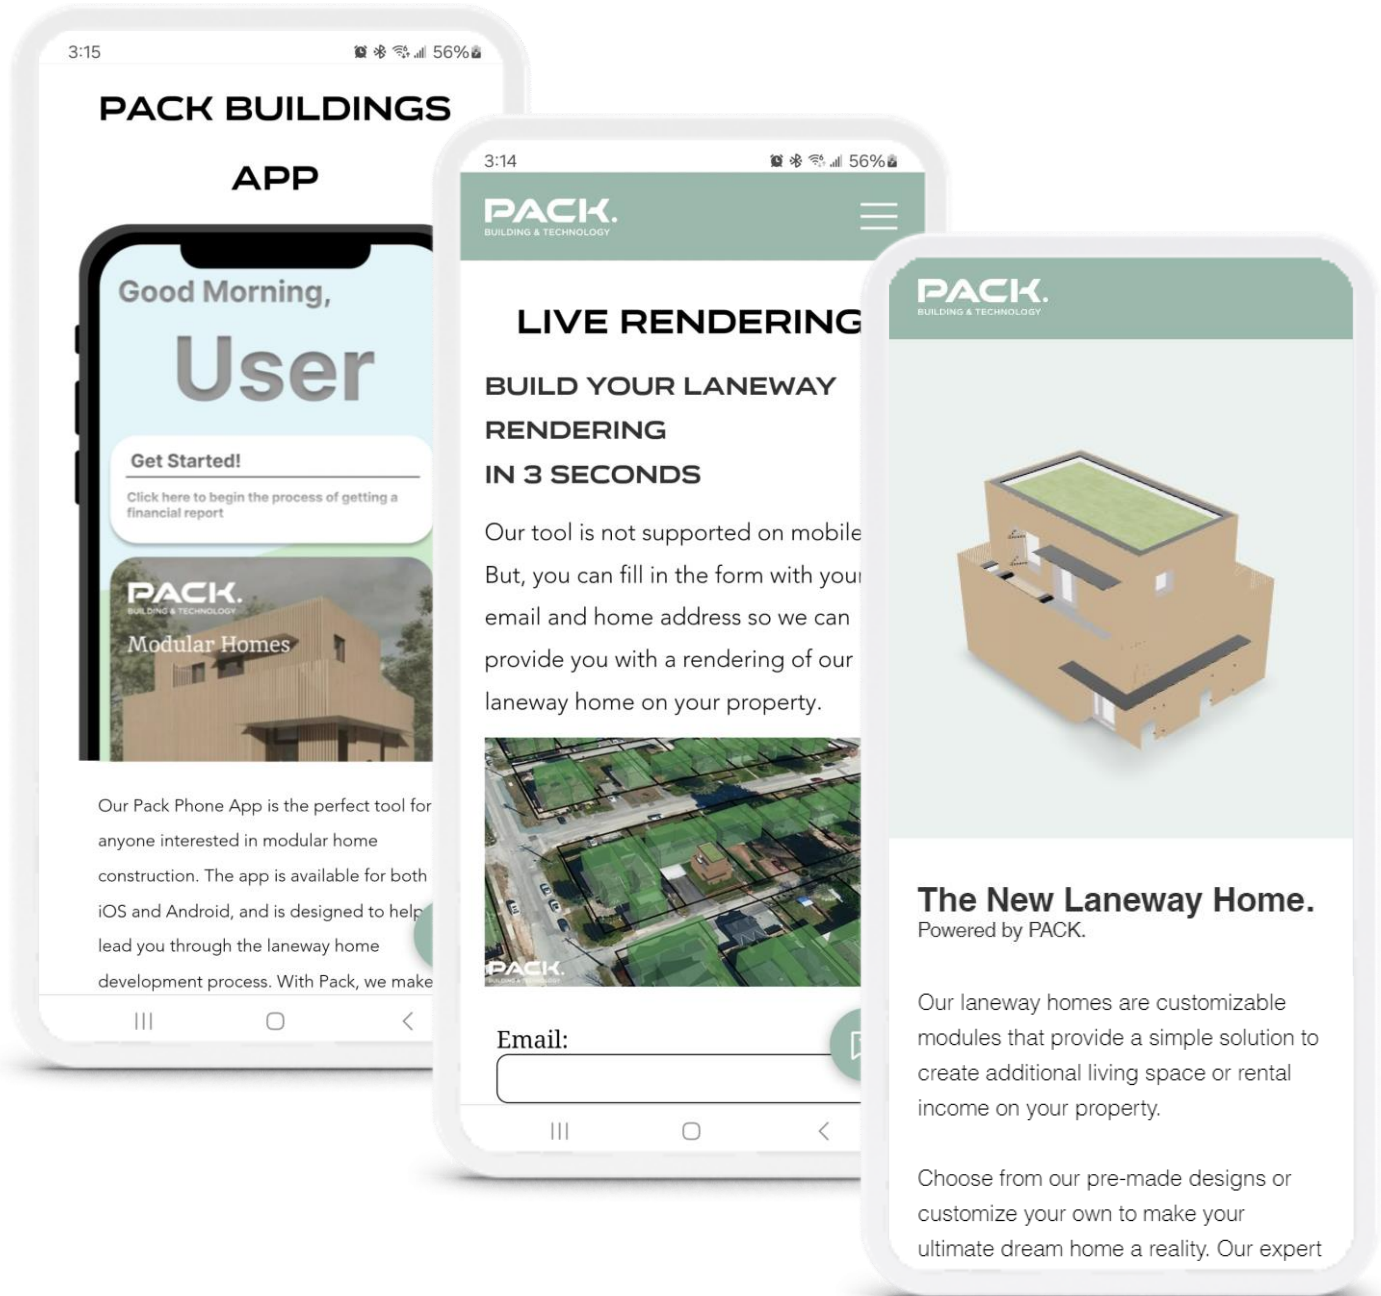

Level 1

Level 2

Manage your project from permits to completion all through our in-house app, currently in development

- **Streamlined Efficiency:** With our modular construction technology, we slash building times by up to 50%, outpacing traditional methods significantly. Your journey from blueprint to reality is accelerated, thanks to our off-site, controlled construction that promises precision and timely delivery.
- **Uncompromised Quality:** Expect nothing less than excellence. Our laneway homes are products of high-precision engineering and scrupulous craftsmanship, consistently delivering superior quality that stands the test of time.
- **Sustainable Living:** Embrace eco-friendly living with reduced carbon footprints. Our green construction methods leverage recycled materials, minimize emissions, and maximize energy efficiency.
- **Cost-Effective Luxury:** The streamlined Pack process translates into direct financial savings for you, without compromising on the luxury and quality of your new laneway home.

Special Offer

Take the next step with us and enjoy a \$3,000 discount as you move forward to 'Phase 2' of creating your dream laneway home.

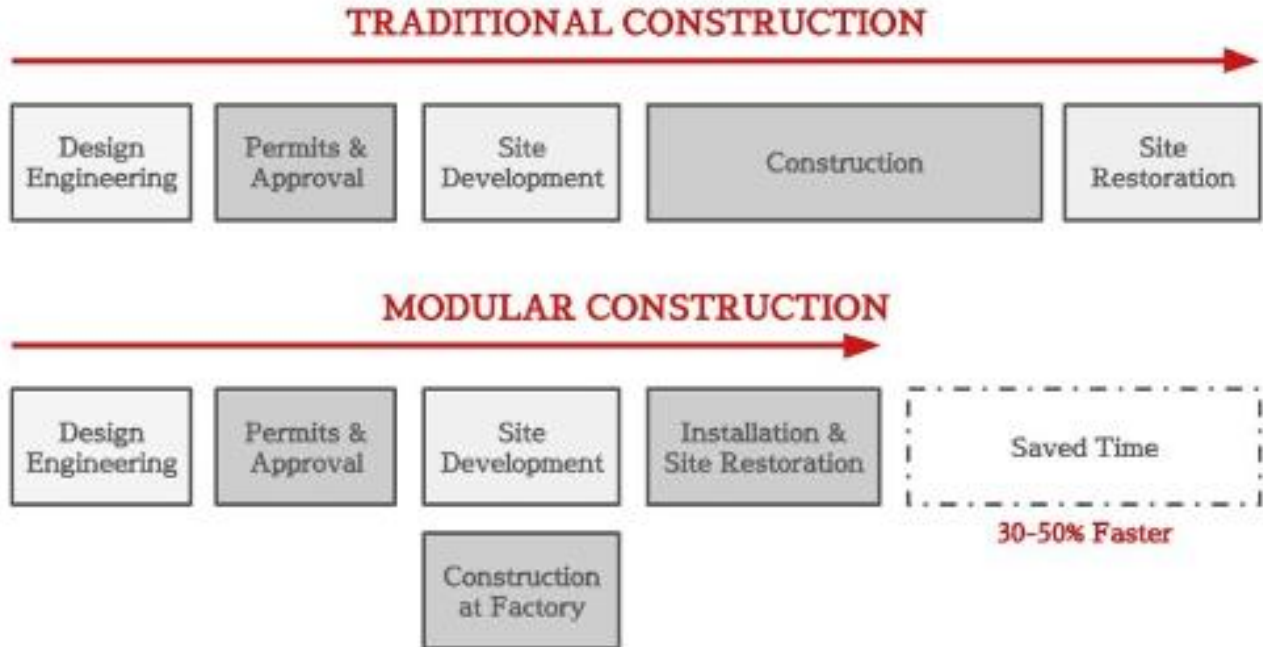

The Pack Promise

At Pack Buildings, we empower you to unlock the hidden potential of your land. Our approach strips away industry jargon and complexity, making the addition of a laneway home as straightforward as any other consumer purchase.

Why Pack?

Because we are more than builders; we are enablers of your aspirations. With Pack, you command the development process, informed, involved, and in control from start to finish. You deserve a home that's a modern sanctuary, tailored to complement your lifestyle and aesthetic preferences

Pack provides a faster delivery time than other competitors

Pack provides a full service, from design to delivery

Task Name	Pack Buildings	Homeowner	Notes
Design and Permitting			
Initial Site Assessment and Feasibility Study	X		Pack Buildings assesses suitability for a laneway house.
Detailed Design Customization	X		Tailoring the modular design to homeowner's needs.
Permit Application and Documentation	X		Pack Buildings handles all required municipal permits.
Preparation and Foundation			
Site Preparation and Foundation Work	X		Includes clearing and foundation laying.
Utility Connections (Permanent)	X		Establishing necessary utilities for the laneway house.
Modular Unit Production			
Fabrication of Modular Units	X		Offsite construction of the modular laneway house.
Quality Assurance and Factory Inspections	X		Ensures compliance with standards before delivery.
Installation and Finishing			
Delivery and Assembly of Modular Units	X		Transportation and onsite assembly of the house.
External Finishes and Landscaping	X	X	Pack Buildings handles major finishes; homeowner may have preferences for landscaping.
Internal Finishes and Fixtures Installation	X		Completing the interior as per design specifications.
Utility Connection Finalization	X		Final connections and activation of utilities.

Phase 1

- **Property Report**
- **Proposal**

A tailored analysis to showcase the potential of your property for a laneway home. Our experts craft a bespoke proposal, outlining the vision and the seamless process ahead, with Pack's modular construction method ensuring precision and efficiency.

Phase 2

- **Preliminary Design**
- **Zoning Review & Approvals**
- **Detailed Design Development**
- **Building Permit Application**

With Pack's pre-engineered modules, select a design that aligns with your taste and property's character. Our team navigates the regulatory landscape, ensuring your design conforms to local standards with ease. Customize finishes and features within our sophisticated design parameters for a personal touch. We expedite this step with ready-to-go designs that meet stringent quality standards.

Phase 3

- **Manufacturing**
- **Delivery**
- **Site Supervision**
- **Accounting & Scheduling**
- **Project Close-out**

Efficient module production begins, transforming high-quality materials into your future home. As your home takes shape off-site, we prepare your land for the arrival of the new structure, ensuring a perfect fit. Transparent and timely updates keep you informed as your home swiftly comes together. With the rapid assembly of modular components on-site, witness the swift realization of your laneway home.

Ready to Transform Your Space?

Lean into a world where development is not only accessible but also intelligently adapted to your needs. Contact us to start your Pack experience and make the smart choice for an efficient, quality, and sustainable future.

Disclaimer

Pack Buildings recognizes and accepts that it is unable to forecast with absolute certainty which elements of the Project's design, such as size, height, footprint, or other characteristics, will receive approval, alteration, or denial by government bodies. This includes, but is not limited to, federal, state, and local government authorities, boards, committees, and zoning officials. Pack Buildings will not bear any liability for losses, costs, expenses, or damages resulting from any action or inaction, interpretation, or decision made by any governing authority that may affect the Project's execution, feasibility, design, or any additional project facet.
